

Monofilament in Technical Textiles and Nonwovens: World Market Forecast Tables to 2010

Description of Products Covered

Application Area and Product	Product Description and Function
Agrotech Woven Crop Cover, Protection	General agricultural, horticultural wovens for protection: wind-breaks, ground matting, tobacco cloth, etc (including tarpaulins)
Agrotech Land Netting	Nets for crop protection, fruit collection, etc. Includes balewrap nets
Agrotech Fishing Ropes	Ropes for fishing - towing nets, fish farms, etc (only)
Agrotech Fishing Line	Lines for fishing (long line, rod and line)
Agrotech Fishing Nets	Nets for all fishing purposes, including seine nets, fish farms etc
Buildtech Scaffold Nets	Scaffolding nets to protect against falling debris; façade netting with or without printed advertising
Clothtech Sewing Threads	Threads used in all garment applications
Clothtech Fasteners	a) Zip teeth b) Velcro (hook and loop) fastenings
Geotech Ground Stabilisation	Geotextile fabrics for stabilisation, separation, drainage
Geotech Soil Reinforcement	Geotextile fabrics for reinforcement of soil
Homotech Furniture Webbing	Strapping used to support seating in upholstered furniture, etc
Homotech Curtain Tapes	Header tapes for drapes and nets
Homotech Sewing Threads	Threads used in all furnishing, household textile applications
Indutech Conveyor Belt	Woven fabrics for conveying and speciality applications
Indutech Brushes	Bristles for brushes of all types
Indutech Woven Filters	All woven filters for use in industrial applications
Indutech Papermaking Felts	Batting and support elements of press, forming and drying fabrics (or felts) in papermaking
Mobiltech Car tyre cord	Fabric for reinforcement of car tyres
Packtech Netting	Net packaging for storing, packing, transporting, retailing foodstuffs, toys, and other
Sporttech Artificial Turf	Material used to provide surfaces for sporting activities
Sporttech Equipment Composites	Materials used in the production of skis, racket frames, canoes, jet-skis

Reporting Levels Used in the Monofilament Forecast Tables

Regions	Fibre Types	Fabric and Other End-Use Product Types
N America S America W Europe E Europe S Asia N E Asia S E Asia Rest of World (Central Asia, Middle East, Africa, Oceania)	Polyester Polyamide Polyolefin	Woven Knitted Yarn-based products Other fabrics
Total: 8	Total: 3	Total: 4

MONOFILAMENT

End-Use Products in Technical Textiles and Nonwovens: World Market Forecasts to 2010

Structure of the Tables

Part A consists of **5 Summary Tables**, which provide an overview of monofilament consumption by volume worldwide over the period 1995-2010. These tables split monofilament consumption by product, application area (e.g. Mobiltech), region, fibre type (e.g. polyester) and fabric type (e.g. woven).

Parts B-D provide a detailed analysis of **21 individual monofilament end-use products** with consumption forecasts to 2010:

- Part B (9 tables) provides estimates and forecasts of consumption for each product across **8 regions** of the world (e.g. North America) in 2002 and 2010 and for each of the seven major regions for 1995 and for every year between 2000 and 2010.
- Part C (5 tables) shows each of the **3 fibre types** (e.g. polyester) used in the production of each monofilament product in 1995 and for every year from 2000 to 2010.
- Part D (6 tables) shows each of the **4 fabric types** (e.g. knitted) used in the production of each monofilament product in 1995 and for every year from 2000 to 2010.
